

Covid-19 Precautions

When You Arrive:

I will greet you at the door and then step back so you can remove your shoes/coat and wash your hands. It might feel strange not to receive a warmer welcome, but safety first.

Please leave the donation for my time on a counter or table and make me aware of its location. If you have not showered directly before seeing me, please proceed to wash up thoroughly.

Please leave your phone, keys, and wallet in the washroom. If you need to touch these items again you will need to wash your hands again.

Once you're done freshening up, I will be anxious and delighted to give you a proper greeting and our intimate adventure together can begin!

Please Do Not Book If:

You are sick or immunocompromised.

You live with someone who is sick or immunocompromised.

You don't wear a mandatory face mask in public environments/within 6 feet of others.

To Ensure Your Safety:

I am fully vaccinated.

I will still be getting tested before and after every tour and am willing to share results along with yours.

I will wear a mask in all indoor/outdoor settings I visit.

I will make sure my in-call space is properly sanitized prior to your arrival.

**My health, yours, and the health of those around me are my top priority. Please be considerate and honest when booking. If you start experiencing symptoms of illness before or after our time together, please contact me immediately. Please give me as much notice as possible if canceling beforehand and I will waive my cancellation fee due to illness. Likewise, I will cancel the appointment with as much notice as possible if I am feeling unwell. Thank you for your understanding and consideration as we all navigate our way through this global pandemic.*
